

AGILE YELLOW BELT TRAINING WITH WOODVIEW MENTAL HEALTH & AUTISM SERVICES

Agile Yellow Belt Overview and Objective:

The Agile Yellow Belt program is delivered over the equivalent of two (2) days and is aimed at developing an understanding of key principles and values in Agile and a basic proficiency in applying key tools and practices, including Scrum and KanBan.

This program was delivered virtually via 4 x 0.5-day live online instructor-led sessions.

About Woodview Mental Health and Autism Services:

Woodview Mental Health and Autism Services provides high-quality mental health and autism services to help strengthen and support the lives of children, youth, and adults who face mental health challenges and/or are living with autism.

Participants:

The participants were representative of the following roles:

Director, Program Manager, Director of Services Halton, Manager of Data and Quality Improvement, Director Finance, Office Coordinator, Program Manager, Executive Coordinator & Board Liaison

"Thank you to our trainer Luis and the Leading Edge Group for taking our team through the Agile Yellow Belt Program. Our organization, providing service in a sector with ever changing needs and increased complexity, will benefit greatly from the principles and strategies learned in the training. In fact, we began implementing concepts learned before the training was over! Thank you!"

– **Brook Gardner,**

Manager of Data and Quality Improvement
